## EDUCATION

- 2022 – Present**    **NED UINIVERSITY OF ENGINEERING AND TECHNOLOGY**    Karachi, PK  
*Bachelor of Engineering (BE), Major in Software Engineering.*
- Currently pursuing BE in SE with CGPA of 3.598.

## ABOUT

**Software Engineer** with expertise in **React** for building responsive and scalable web applications. Experienced in backend development with **Node.js, Express, and MongoDB**, creating full-stack **MERN** applications. Currently expanding skills in **Next.js** for enhanced performance and scalability. Passionate about continuous learning and innovation in web development.

## PROJECTS

- Hasan Bites**  
**Hasan Bites** – A MERN stack food ordering website where users can browse the menu, place orders, track them in real time via **Socket.io**, and view order history. Admins can manage menus, update order statuses, and perform item CRUD operations. The backend, built with **Node.js, Express, and MongoDB**, handles authentication, order processing, and data management. **Redux Persist** ensures state persistence, **Cloudinary** manages image storage, and **MUI + Tailwind CSS** provide a responsive UI.
- Al-Quran**  
The application is built with **React** and **Tailwind CSS**, utilizing **React Hooks, Redux** for state management, and **GSAP** for animations, all within a fully responsive design. It offers chapter-wise reading with both Arabic and Latin translations, along with a choice of 5 different reciters. For Juz-wise navigation, the app provides an Arabic translation and a single reciter option.

## ACHEIVEMENTS

- Earned a certification in **Competitive Programming competition (CodeSphere)**, demonstrating strong problem-solving skills.
- Participated in **NASA Space Apps Challenge 2024** Karachi Hackathon, collaborating with a team to develop innovative solutions for real-world problems and **received a certification for successful project submission**.
- Integral part of the Software students' society (**Software Innovators Club**), organizing and managing various events, **being the Member of Technical Team**.
- Ranked 5<sup>th</sup> position** in the Web Development Module at **ProBattle Hackathon 2025** conducted in IBA.

## TECHNICAL SKILLS

- Languages:** JavaScript, C++, Python, HTML5, CSS3
- Frameworks:** Express.js, Bootstrap, Tailwind CSS
- Technologies/Platforms:** Node.js
- Libraries:** React, Redux, Material UI, Socket.io, React Three Fiber
- Databases:** MongoDB, MySQL.
- Developer Tools:** Git, GitHub, Firebase, Postman, MongoDB Compass.
- Interest In:** Web Development, AI, .NET.

## SOFT SKILLS

- Teaching,
- Communication,
- Working in collaborative environment,
- Lifelong learner
